

Natural Beauty. Engineered to Last.

INTRODUCING THE  
**ONLY FACTORY-SEALED  
EXTERIOR WOOD DOOR**

**MASONITE.**

Open to extraordinary.

A dynamic splash of water with many bubbles, filling the left side and top of the page. The water is clear and bright blue, creating a sense of movement and freshness.

# LOVE WOOD DOORS? SO DOES WATER.

We went back to the drawing board to understand the problems commonly associated with wood doors. From warping and cracking to shrinking and delamination, Masonite solved them all by combating the root cause: water infiltration. The result? A line of exterior wood doors specifically engineered to resist water better than anything else on the market.

**5-YEAR** LIMITED WARRANTY\*

\*20-year warranty available on all torrefied species

# EXCLUSIVE AQUASEAL™ TECHNOLOGY KEEPS WATER OUT

Masonite is the only manufacturer who takes the time to factory-seal door glass and the spaces between panels, ensuring consistent, reliable performance that protects the beauty of our wood doors.

Our invisible AquaSeal™ technology prevents water from entering the door.

Others' unsealed doors allow water to infiltrate and damage the wood.

OTHERS' SOLUTIONS

## UNBLEMISHED BEAUTY

Other exterior wood doors are sealed during the installation using an unsubtle, caulk-like substance. By contrast, Masonite's factory-sealed doors deliver pristine, crystal-clear protection.

# HIGH-QUALITY COMPONENTS RESIST THE ELEMENTS BETTER

The unique closed-mortise construction prevents water channels from infiltrating core materials.

Our warm-edge flexible spacers reduce condensation for years to come—one of many reasons Masonite offers a 20-year warranty on all door glass.

LVL stiles and rails offer greater stability—and no warping.

The MR50 exterior grade core maximizes water resistance.

2-ply panels provides sturdy construction for solid panels.

# **WATER VS WOOD: PROBLEM SOLVED**

“Our engineering team put our exterior wood doors through a barrage of tests and found that water infiltration was the primary cause of wood door failures. Competitors have only attempted to solve issues caused by water—they haven’t committed to stop it from entering the door like we have.”

- Chris Jones, Masonite Engineer

## Natural Beauty. Engineered to Last.

Masonite offers the only factory-sealed exterior wood door. Our exclusive AquaSeal™ technology enables our wood doors to resist water better than anything on the market.

**Choose the only exterior wood door  
factory-sealed to last longer.**
