

# FLAT TRACK HARDWARE

UPSCALE SLIDING DOOR HARDWARE

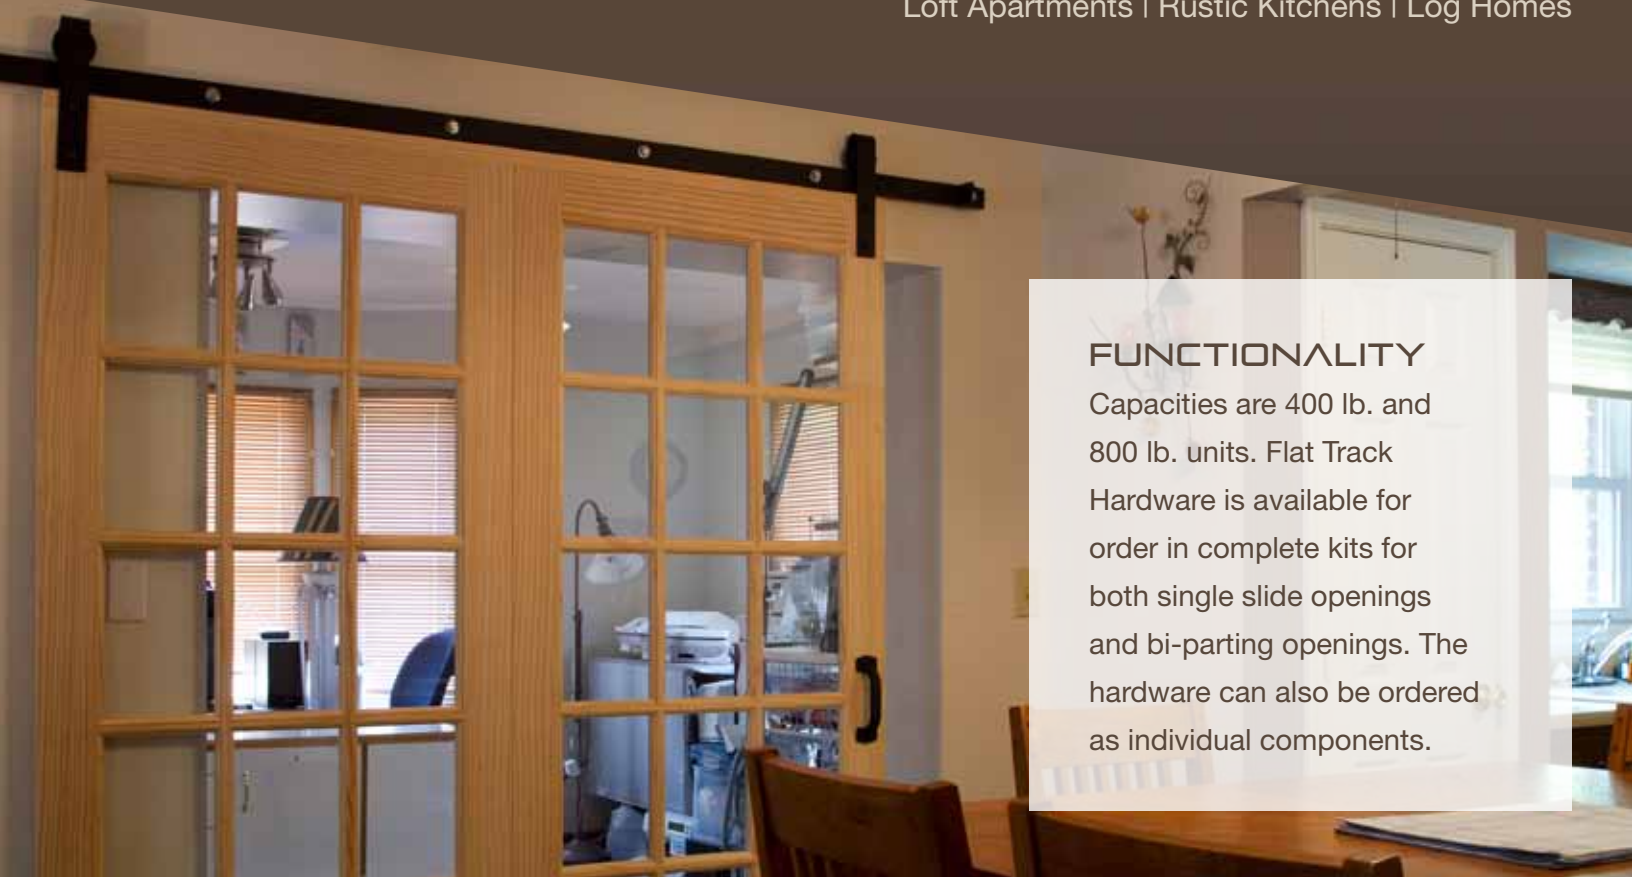

## DESIGN

Leatherneck Flat Track Hardware can be customized to fit your unique needs. The hardware is available in clean, simple styling or can be designed to be ornate depending upon the application. The hardware comes in a standard black finish. Special finishes are available upon request.

Flat Track Hardware styling dates back to the turn of the century when it was used in warehouses and industrial settings. Today the highly stylized look is perfect for unique interior and exterior applications. The line can be customized for specific applications, is space saving, and will enhance any opening. The Flat Track Hardware by Leatherneck can be customized to fit virtually any need.

## ENDLESS POSSIBILITIES

Hotel Guest Rooms | Office Space | Bath Doors  
Barn Doors | Cafés | Restaurants | Museums | Galleries

Leatherneck Hardware, Inc. has been in business since 1977. From the beginning, our goal has been to continually improve the design and manufacture of hardware components for Aircraft Hangar Doors and Heavy-Duty Industrial Sliding and Rolling Doors. We have grown from a small component supplier to the highly specialized company we are today, which includes the unique Flat Track hardware and the stylized line of Coburn Sliding Systems.

Our products are used widely by many of the leading Specialty Door Manufacturers and Building Manufacturers worldwide. We personally design and manufacture all of our Flat Track Sliding Door Hardware, and specialize in custom design orders. Whether new construction, repair or retrofit, Leatherneck Hardware has a long history of creative solutions to any door hardware project. Our Sliding Door Hardware is second to none in the industry.
